Records obtained from the web page is limited, per law. To obtain a "complete" record with all arrests and deferred judgments, use the form which requires a signature from the subject of the search.

Indexing & Storage: Records available until the person is 80 years old or passes away. There is a computerized index going back to 1935. 100% of arrest records are fingerprint supported. New records available for inquiry in up to 10 days. Records normally destroyed after If DCI does not receive a fingerprint card and/or a disposition form, arrest information will be purged from DCI files. This is why DCI does not guarantee/certify a person has not been convicted in an IA court.

Searching: A signed release or waiver is not required, nor are fingerprints. But if a waiver is included, the report will show any arrest over 18 months old without a disposition, otherwise not. Be sure to give the full name. The form can be obtained at www.dps.state.ia.us/DCI/supportoperations/crimhistory/RequestFrom.pdf or by fax, mail, or in person. A returned record is genuine if the DCI logo is imbedded, except if returned by fax. This data not released: arrest information when the agency has not received a fingerprint file. A signed

release by subject entitles requester to all records including those without dispositions (up to 4 years old). If the subject's signed release is not presented, then no arrest records over 18 months old without dispositions are released. Per a 2012 U.S. DOJ Study, 96% of all arrests in database have final dispositions recorded, and 1% of all dispositions received cannot be matched to a specific arrest record.

Searching Standards for Federal Courts: District Courts index by defendant, plaintiff, and by case number. Bankruptcy Courts usually index by debtor and case number. Most case files created prior to 1999 were maintained in paper format only. Since 2006, all cases are filed electronically. Paper case files may be stored at the courthouse or forwarded to a designated Federal Records Center (see <http://archives.gov/frc>), the timeframe determined by the Court. These case files may be obtained via the Court or directly from the FRC.

Case data may be viewed PACER, the online public access program. An account is required, the fee is \$.10 per page; there is no fee if a usage does not exceed \$15.00 in a quarter. For details about PACER see the Appendix or go to <https://www.pacer.gov> or call 800-676-6856.

The copy fee is \$.50; \$.10 if electronic document is printed from terminal. Certification fee is \$11.00 per document and \$21.00 for exemplification, if available. If a case is still available from the individual federal court, the search fee is \$30.00. If the case is at the Archives, the case can be ordered from the court. The fee to retrieve a paper file is \$64.00 for the first box and \$39.00 ea add'l box. Also, the public can order copies direct online from the National Archives. Copies can be delivered by mail, fax, or email. See more information, including fees, at www.archives.gov/research/court-records/.55.

The Supreme and Appellate Courts

Besides being the court of last resort, the Iowa Supreme Court is responsible for licensing and disciplining attorneys, promulgating rules of procedure and practice used throughout the state courts, and overseeing the operation of the entire state court system. The Iowa Court of Appeals is an intermediate appellate court. It reviews appeals from trial court decisions that have been transferred to the Court of Appeals by the Supreme Court. From the home page above one may access Supreme Court and Appellate Court opinions.

Details on the Court Structure

The **District Court** is the court of general jurisdiction and handles all civil, criminal, juvenile, and probate matters in the state. Three levels of judges within District court: district judges have general jurisdiction over all types of cases; associate judges (district associate, associate juvenile, associate probate) and magistrates have limited jurisdiction.

If a civil matter is \$5,000 or less, it is handled by the Magistrate judge; if over \$5,000, then by the District Court judge.

Judicial Magistrates, part of the District Court, have jurisdiction over simple misdemeanors, including scheduled violations, county and municipal infractions, and small claims. Magistrates have authority to issue search warrants, conduct preliminary hearings, and hear certain involuntary hospitalization matters.

Vital records (except divorces) were moved from the courts to the County Recorder's office in each county. Divorce records are held by the County Clerk of Courts.

Record Searching Facts You Need to Know

In most courts, the copy fee is \$.50 per page. By statute the certification fee is \$20.00 plus copy fee. Most courts do not perform name searches and recommend the use of a record retriever. Most courts provide a public access terminal for onsite access to the index.

Two options are available - a free system and a pay system.

District criminal, civil (including divorce cases with financials/custody data), probate, and traffic information is available for free for basic information from all 99 Iowa counties at <https://www.iowacourts.state.ia.us/ESAWebApp/SelectFrame>. Name searches are available on either a statewide or specific county basis. Names of juveniles aged 10 to 17 will only appear for completed cases with a guilty verdict.

A subscription system (Advanced Case Search) is offered which provides more detailed information; fee is \$25.00 per month. While this is an excellent site with much information and are updated daily, note that the historical records are provided from different starting dates per county. Images are not shown. The DOB is not entered when searching, but is often shown on search results.

The pay system is much stronger than the free system, provides more details, and is considered equivalent to an onsite search. The free search system is not equivalent to an onsite search.

Iowa Recording Offices

Organization:

99 counties, 100 recording offices. Lee County has two recording offices. The recording officer is the County Recorder. Many counties utilize a grantor/grantee index containing all transactions recorded with them. Iowa is in the Central Time Zone (CST).

What is Recorded

Recorded documents include all document related to title of real estate, state and local tax liens, federal tax liens on personal property, and vital records (birth, death, marriage). The Recorder also has responsibility for registering title & registrations for boats, snowmobiles and ATVs.

Real Estate Records:

Most Iowa counties are hesitant to perform real estate searches but about half will provide a listing from the grantor/grantee index with the understanding that it is not certified in the sense that a title search is. The record certification fee is usually \$5.00 per document. Copy fees vary.

Searching Tax Liens and UCC Records:

Federal tax liens on personal property of businesses are filed with the Secretary of State. Other federal and all state tax liens on personal property are filed with the County Recorder. County search practices vary widely; about half provide some sort of separate tax lien search.

Financing statements are filed at the state level except for real estate related collateral filed with the County Recorder. Prior to July, 2001, consumer goods were also filed at the County Recorder and these older records can be searched there. Approx. 50% of Iowa's counties will do UCC searches. UCC search fee is usually \$5.00 per debtor name (\$6.00 if the standard UCC-11 form is not used). UCC copy fee is usually \$1.00 per page.

Online Access:

Recorded Documents:

- Provided by the Iowa county Recorders Association, the Iowa Land Records system at <http://iowalandrecords.org/portal> offers statewide searching and pdf images of deeds, liens, even UCCs and judgments. There are also features for monitoring new documents and saving documents. Registration is currently free, however this service may begin charging fees at any time.
